

ROBIN SHARPE ADVENTURE COURSE

This facility has been provided following a generous donation left to us by Robin Sharpe, a former member of Bridlington Scouts. The course is free to use subject to the following:

BEFORE USE

- The entire course must be walked to check for any obstructions/damage
 - Check all obstacles for the suitability and safety of your group
 - Be aware that this course is in a natural environment and the ground is uneven
 - Make sure everyone wears appropriate footwear and suitable clothing
 - Remove any jewellery/watches that may catch on the equipment
-

DURING USE

- Young people must be supervised when using the facility
 - Stay within your capability, do not do anything that you're uncomfortable with
 - Think about how many times you can complete it, rather than how quickly
 - Lower yourself or climb down from the obstacles DO NOT jump down
 - Remember, surfaces may be slippery, especially when wet
 - It could get muddy at times – but doesn't that just add to the adventure!
 - Have Fun!
-

AFTER USE

- Please leave everything as you found it for future users
- Report any issues to the County Office

HOW ABOUT?

- Why not work as a team to complete the course while transporting a pioneering pole that must not touch the ground?
- Can you transport a bucket or cup of water from end to end without spilling any?
- Perhaps you could add some additional challenges along the route to add to the fun
- Could you lead someone blindfolded along the course?

Please remember to include any variations in your risk assessment.
